- ✓ Steam-engine one day
- ✓ Award-winning food
- ✓ Activities and excursions
- ✓ World-heritage Laponia and Abisko

Share your experience

#Inlandsbanan

A colourful and exclusive train journey

Together with the Swedish Railway Museum, Inlandsbanan offers two unique and exclusive train journeys in 2020 and 2021. The trips are made by classical trains with comfortable first-class carriages and first-class restaurant and bar on board. The locomotives will be driven by different energy sources along the way, even steam between Östersund and Vilhelmina.

Good food is an important part of the experience, and during the trip, several meals are served in the onboard restaurant. Often with spectacular views over a beautiful lake or on a bridge over one of the mighty Lapland rivers. At selected local restaurants we stop to eat the best the region has to offer. Full board and accommodation is included in both journeys.

Both trains pass the Arctic Circle of course. You travel comfortable and get a delightful combination of discovery and peace and quiet throughout the journey.

#Inlandsbanan

ITINERARY | DAY BY DAY

Tis 25 aug | Stockholm - Östersund

The fine old 1st class carriage attracts interest already before departure at Stockholm central station. The first stretch goes through the counties of Gästrikland and Hälsningland towards Jämtland where our first stop is the residential city Östersund. We stay comfortable at centrally situated hotel and enjoy a nice dinner together with newly found friends. Afterwards we recommend a evening walk by the shore of lake Storsjön or a visit to one of the city's cosy pubs.

Wed 26th of Aug | Östersund - Arvidsjaur

If the train was the centre of attention yesterday, it will be even more today. After a good breakfast at the hotel we take a short morning walk to the steam train that awaits us and will take us into the Swedish Lapland. Villages and small towns are being passed along the way before we stop for lunch at several times award-winning Bergmans fisk & vilt restaurant just outside Vilhelmina. In Sorsele we make a stop to visit the Inlandsbanan museum and the day ends in Arvidsjaur at hotel Lapponia.

Thur 27th of Aug | Arvidsjaur - Jokkmokk - Gällivare

After breakfast and walk to the station the journey proceeds to the Arctic Circle where we seize the moment with a photo-shoot. In Jokkmokk we visit Ájtte -Swedish mountain- and Sami museum before we continue further north to the world heritage Lapponia towards Inlandsbanan's final destination Gällivare. We stay at newly renovated Grand Hotel Lapland opposite the railway station. Close by there is a nice walking path along the river if you fancy a walk and sight the mount Dundret.

Fri 28th of Aug | Gällivare – Abisko - Kiruna

Today we pass the mining fields on our way to the mountains and Abisko National park. Of course there will be a chance to take a photo over maybe the most pictured mountain view of Sweden, Lappporten. In Abisko there it is possible to buy a tour with the cable car up to mount Nuolja, where you can enjoy the stunning views over the surrounding mountains and lake Torneträsk. It is also possible to add a shorter walk to Abisko canyon, Abiskoetnau. We recommend a visit to Naturum in the National park where you can learn more from film, nature guides and exhibitions. Dinner is held at STF Abisko Tourist station, certified by KRAV2 standard and with views over Torneträsk. After dinner we board the train to Kiruna where we stay at a centrally situated hotel.

Sat 29th of Aug | Kiruna

The journey gets an adventurous ending with a visit in one of the world's largest mines, LKAB. We get a guided tour and continue to Icehotel 365 in Jukkasjärvi where we get a nice lunch and a guided tour where we get to know more about the world's first Icehotel. Nowadays it's open all year round with accommodation, Icebar and shop. We end the day together with a farewell dinner in Kiruna before individual travel home. We are pleased to help with accommodation or connecting trains.
